This beautiful complex of structures, gardens and pools, houses a therapy centre featuring programs for relaxation, reinvigoration and stress relief based on traditional healing methods. These unique restorative Malay treatments have been handed down from generation to generation, ensuring their authenticity, and therapeutic value. With a history of more than a thousand years, the practices are believed to have their origins in the convergence of Malay, Arab, Indian and Chinese influences during the days of the Malacca Sultanate.

At the Spa Village Tanjong Jara these long held health and beauty traditions are revived for you to enjoy. Treat yourself to this rich history, in which unique natural ingredients found in various indigenous herbs and plants are combined with the skills of our resident Malay healers to provide a very special health and beauty experience.
